DETAILED ACTION

1. Claims 1-20 are presented for examination.

Election/Restrictions

2. Restriction to one of the following invention is required under 35 U.S.C. 121
 - I. Claims 1-10 are drawn to a file system which allows writing and reading access, which is classified in Class 707, subclass 1.
 - II. Claims 10-20 are drawn to updating file for backup, which is classified in Class 707, subclass 204.

Inventions I and II are related as subcombinations disclosed as usable together a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I is drawn to a file system which allow to write and read access. The updating the database in the invention II is utilized to update records in the database for backup purpose. See M.P.E.P 806.05(d)

Because of the inventions are distinct for the given reasons and have acquired in a separate status in the art as show by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Application is reminded that upon cancellation of claims in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventor is no longer an inventor of at least one claim remaining in the application. Any amendment of inventor ship must be accompanied by a diligently-file petition under 37 C.F.R 1.48(b) and by fee required 37 C.F.R. 1.17(h)
